Vimeo Technologies
📍 *Bengaluru, Karnataka*
📅 *March, 2021 — Current*

- Part of partnerships team. Worked on Integration of vimeo create for various partners like constant contacts and facebook.
- Identified and fix the routing issues in internal framework.
- Change in code generation scripts for routing files.
- Created and owned video tagging pipeline (pre downloads service).
- Fixed multiple issues in SDK for vimeo create integration.
- Worked on authentication, app capablities and session with cookies and JWT interoperability, for 3rd party cookies blocked use cases.

Peak.ai | Software Engineer
📍 *Jaipur, Rajasthan*
📅 *Aug, 2018 — Jan, 2021*

- Worked on user management, notification, workflows, authentication, and RBAC (role-based access control) services
- Developed TCP layer proxy for lambda and PostgreSQL communication without persistent connection.
- Implemented data fetching connectors through FTP/SFTP.
- Developed react-redux architectured application.
- Integration of BI tool (sisense) in frontend application.
- Used various AWS services like lambda, DynamoDB, API Gateway, S3, Cloudfront, EC2, IAM, SQS for developing application modules
- Optimized front-end delivery, by code splitting, and implementing better-caching strategy (edge caching and object expiration).
- Developed a separate component library, for moving presentational components out of the business application.
- Built automated data fetching pipeline from mintuk.bvdinfo.com and google big query.

Open Source Contribution

- Made Small contribution to react.
- Flashr for notifications management in redux based applications.

Professional Certificate

- AWS Developer Associate (PWYQS9G1MFE11RSL) Issued on Aug 12, 2019

Honors and Awards

- Peak Value Award (2 times)
- Deloitte Innovation Award, Smart India Hackathon 2017

Technical Skills

Experienced :

    React | Redux | NodeJS | ExpressJS | Javascript | AWS S3 | AWS Lambda | AWS DynamoDB | API Gateway

Hands-On :

    CloudFormation (IAC) | AWS SNS | Microservice Infra | AWS SQS | Serverless Computing

Relevant Courses :

    Data Structures & Algorithms | Design & Analysis of Algorithms | Operating System | UNIX Programming | Computer Networks | Databases

---

Education

B. Tech *(2015 - Dropped in final year)*
    Global Institute of Technology (RTU)

Senior Secondary *(2012 - 2014)*
    Rawat Public School (CBSE)

Secondary *(2010 - 2012)*
    Rawat Public School (CBSE)
